Slide 2: The Problem

- 75% still use spreadsheets or legacy software (10+ years old)
- FTA e-invoicing mandate: Jan 2027 (Phase 1), July 2027 (Phase 2)
- No mainstream solution offers native UAE compliance
- Manual compliance = 80+ hours/month = AED 30K+ annual cost per SME
- Competitors (Xero, QuickBooks) require expensive consulting

The Opportunity: \$180M+ annual software market growing 18-22% CAGR
